Skills:

Languages: Java, JavaScript, SQL ,React, Css, Html
Technologies & Tools: React jS, Git and Github, NPM Package Manager

Project Work.

Image Search Generator Application | Live Link |
React

- Developed to provide users with a seamless and efficient way to search for high-quality images from the Unsplash database.

- Built a responsive web application using React to fetch and display images based on user queries, integrating Unsplash's API for data retrieval.

- Implemented React hooks and state management to handle user input and API responses, ensuring a dynamic and user-friendly interface

Notes application | Live Link |
Html | Css | Javascript

- Designed and implemented the user interface using HTML and CSS, focusing on a clean and   intuitive layout for optimal user experience.

- Leveraged the Web Storage API, specifically the localStorage object, to enable persistent storage of notes within the browser.

- Included functionalities such as search and filter options to facilitate easy navigation and organization of notes.

Education

Prathyusha Engineering College   Dec 2021 - May2025
B.E. in Computer Science and Engineering   *CGPA: 8.66/10*
Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms.

Jaya Matric HR SEC School   Grad 2021
                                                                                    percentage: 82

Awards and Certificates

- SQL at HackerRank: solve serval sql problem and gained Five star batch

- Web development on Udemy

- vision control on Udemy
